

### Results international research infrastructure - call 2020

code	promotor	title	awarded	period
I001921N ANAEE	Ivan Nijs	AnaEE- Flanders: Integrated infrastructure for experimental ecosystem research	€854.407	2021-2022
I000921N CLARIAH	Christophe Verbruggen	CLARIAH-VL Advancing the Open Humanities Service Infrastructure	€3.435.802	2021-2024
I001321N CWS	Johan Martens	Nuclear Magnetic Resonance Spectroscopy Platform for Molecular Water Research	€1.990.383*	2021-2024
I001721N DISSCO	Patricia Mergen	Towards a collection management infrastructure for Flanders	€3.382.496	2021-2024
I001621N EMBRC	Ann Vanreusel	The Flemish contribution to the European Marine Biological Resource Centre	€3.825.201	2021-2024
I002121N EMPHASIS	Dirk Inzé	Emphasis-Belgium: Phenotyping the future crops	€2.219.286	2021-2024
I000721N EU GENOMICS	Joris Vermeesch	EU Infrastructure for Genome Analysis	€647.145	2021-2024
I000621N EUFAR	Ils Reusen	Integrating NASA's state-of-the-art airborne imaging spectrometer in the VITO Remote Sensing Data Center as contribution to the European Facility for Airborne Research in Environmental and Geo-Sciences	€787.538	2021-2024
I000321N EURO- BIOIMAGING	Koen Van Laere	FB-III- Flanders BioImaging: Integrating Imaging Infrastructure from cell to man	€631.454	2021-2022

I001821N ICOS	Ivan Janssens	Integrated Carbon Observation System: setting standards for greenhouse gas observations by Flanders (ICOS-Flanders)	€5.514.932*	2021-2024
I002021N LIFEWATCH	Jan Mees	Flemish contribution to LifeWatch.eu. A Flemish marine, terrestrial and freshwater biodiversity observatory, models and data systems, including a central species information backbone	€7.515.888*	2021-2024
I000521N MERCATOR	Hugues Sana	The Mercator Telescope in the Era of the ESA Gaia and NASA TESS space missions	€1.352.509	2021-2024
I001421N METIS	Hans Van Winckel	The Mid-Infrared Imager and Spectrograph for the Extremely Large Telescope of the European Southern Observatory	€1.431.118	2021-2024
I000821N MARINERGI	Peter Troch	A new state-of-the-art motion capturing system for testing new emerging offshore and coastal engineering technologies in the new "Coastal & Ocean wave Basin (COB)" in Ostend	€380.725	2021-2024

\* under specific conditions

**Applications call 2020 international research infrastructure without financing but with support from Flanders**

<b>code</b>	<b>promotor</b>	<b>title</b>	<b>Political support</b>
I001021N CLARIN	Els Lefever	Common Language Resources Infrastructure for Flanders	Yes
I002221N EIRENE	Greet Schoeters	Research infrastructure for EnvIRonmental Exposure assessmeNt in Europe (EIRENE)	Yes*
I001521N IBISBA	Heleen De Wever	Industrial Biotechnology Innovation and Synthetic Biology Accelerator	Yes
I001221N SLICES	Piet Demeester	Flemish participation in Scientific Large-scale Infrastructure for Computing/Communication Experimental Studies	Yes*
