- ORCID iD (Open Researcher and Contributor ID) - https://orcid.org/

Addresses
- Legal domicile address (in Belgium or abroad)
  - Non-Belgian domicile in EU: add TIN code (tax identification number)
  - (Future) ‘Belgian’ service address

no access to new application before these 7 items are completed…
In the framework of Weave, there are two options to submit a joint research project:

**FWO as Lead Agency**: This means that the joint research project is submitted to and evaluated by FWO. Please note that in this case your foreign partner(s) also need(s) to submit a concise administrative application at their own funding agency.

**FWO as Partner Agency**: This means that the joint research project is submitted to and evaluated by another European research funder with whom FWO has an agreement. To register your participation as a Flemish research team you also need to submit a concise administrative application at FWO.

This application form is to be used to register your joint research project at FWO solely for administrative purposes. Your foreign partner needs to submit the joint research project at their concerned research funder (Lead Agency) who will perform the entire scientific evaluation. (FWO as Partner Agency).

**Select Country Weave Lead Agency**

- Austria (FWF)
- French speaking community of Belgium (F.R.S.-FNRS)
- Germany (DFG)
- Luxembourg (FNR)
- Poland (NCN)

Host institution – requested funding

FWO supervisor-spokesperson and (co-)supervisor(s)

1. Supervisor-spokesperson: the main applicant of the project, affiliated to a Flemish main host institution* (mandatory for each project). For eligibility requirements see regulations, art. 10.
2. Supervisor: the main applicant of (a) partner Flemish main host institution(s).* For eligibility requirements see regulations, art. 10.
3. Co-supervisor:
   - The co-applicant within (1) the Flemish main host institution of the supervisor-spokesperson and/or (2) (a) partner Flemish main host institution(s).* For eligibility requirements see regulations, art. 10 or 11 (postdoc-level).

OR

- The main applicant and potential co-applicant(s) within an eligible non-main host institution. For eligibility requirements see regulations, art. 11.

* Universities in the Flemish Community, the Evangelical Protestant Faculty in Leuven, the Faculty for Protestant Theology in Brussels, the Maritime Academy, the Vlerick Business School, the Antwerp Management School, and the Institute of Tropical Medicine.

Based on the available information, the supervisor-spokesperson is required to justify that they will normally be leading the project throughout its life cycle, regardless of the nature of the application. If the supervisor-spokesperson submits a duly substantiated justification, they will be deemed to meet the requirement of this article.

This provision also applies to co-supervisors acting as main applicant and therefore managing the budget line of an eligible research institution other than one of the main host institutions as referred to in article 7, paragraph 2 of the regulations for projects fundamental research. Please note that all applicants (supervisor-spokesperson and (co-)supervisor(s)) of the main Flemish and other Flemish/federal host institutions must have an online E-luctet FWO profile including a fully updated overview of his/her functions/career and list of disciplines adjusted to the new discipline codes (as from 01/10/2018).

Foreign Weave supervisor-spokesperson(s) and (co-)supervisor(s)

List all involved foreign Weave partner countries and corresponding host institution(s), supervisor-spokesperson(s), and (co-)supervisor(s). Involved foreign Weave supervisor-spokesperson(s), (co-)supervisor(s) and host institution(s) should meet the eligibility requirements of their respective foreign research funder.

Please note that there might be limitations to the maximum project duration depending on which foreign Weave partner(s) are involved in your application. For more information see this document.

For collaborations with Luxembourg (FNR), please pay special attention to the following item:

In principle joint projects with Luxembourg (FNR) have a duration of maximum 3 years. Only in case a PhD is requested in the 4th year at FNR (Luxembourg), Flemish applicants can also request budget for the 4th year at FWO. However, this extra budget for the 4th year at FWO is restricted to the cost of a PhD student (160 euro fee).

For collaborations with Poland (NCN) please pay special attention to the following item:

Despite the fact that in the NCN (as Lead Agency) application form only the Polish and foreign supervisor-spokesperson (main applicants of the project) should be named (and all other research team members are anonymous), it is required in this FWO administrative submission that you list all persons (Flemish and foreign) that will officially take up a role in the consortium, not only as supervisor-(spokesperson), but also as co-supervisor.

Ethics

**FWO Ethics Table**

The table below lists questions about possible ethical aspects in research proposals. Please go through the main table and tick 'YES' for aspect(s) relevant to your proposal. Then **answer any related sub-questions by clicking on the appropriate ethical topic** that becomes listed under 'Ethical Issues'. You can return to the main table by clicking on 'Ethical issues'.

If you mark a 'yes' for the question, it follows that:

- **For the questions marked with ***: the applicant is legally or on the basis of institutional regulations obliged to ask for an ethical approval at the competent ethics committee of the host institution. Please do take into account that even when there is no obligation with regard to the research itself, for the **publication of the results** an approval may still be necessary and that no retroactive ethics committee approvals are provided.

  If you have answered questions with an * positively, you must submit an ethics approval request with detailed documentation on e.g. study methodology, procedures, informed consent form, insurance, etc to the ethics committee **as soon as your application has been approved for funding**. Study-specific procedures cannot begin until this ethics approval has been formally given. Only if the approval relates to a work package planned at a later stage of the project, and if legislation allows, the host institution may decide to authorize the researcher to obtain ethical approval at a later stage, i.e. at the latest before the initiation of the relevant part of the research. Please keep in mind that this delayed application/permission is not possible for all research institutions. Also keep in mind that the ethics advisory procedure can take some time and that therefore you should submit your proposal to the ethics committee **well in time**.

- **For the questions that are not marked**: Perhaps no ethics approval may be needed for your research proposal. However, please do take into account that your host research institution might have a stricter policy towards ethics approval for certain research topics and methodology. Furthermore, even when there is no obligation with regard to the research itself, for the publication of the results an ethics approval may still be necessary. At any case, the applicant will have to reflect on those issues and take, if necessary, appropriate measures. If in doubt, it is advised to contact the supporting services of your host institution.

For more information on each of the ethics issues and how to address them, check the FWO webpage on research ethics and the **Guidelines on FWO's ethics checklist**.

Ethics approval related to these questions should always be requested before the start of the research project as a whole (as soon as your application has been approved for funding). In addition to ethics approval by your local ethics committee, research projects using human embryos also require subsequent approval by the Federal Commission for Medical and Scientific Research on embryos in vitro (FCE).
Ethical Issues

Human embryos and/or human embryonic stem cells

Does your research involve the use of human embryos? *
[Yes] [No]

Does your research involve human Embryonic Stem Cells (hESCs)? *
[Yes] [No]

Will the hESCs be directly derived from embryos within this project?
[Yes] [No]

Are they produced or collected by you as part of this project?

- Yes
- No
Personal data are defined as 'any information relating to an identified or identifiable natural person'. An 'identifiable natural person', or 'data subject', is 'one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person' (Article 4(1) GDPR).

**Does your research involve collecting and/or processing of personal data?**
The GDPR requires that all personal data processing activities are recorded. Please consult your host institution for the procedure to follow as soon as the project is granted.

[Yes] [No]

**Does your research involve international import or export of personal data?**
Does your research involve collecting and/or processing of personal data?
The GDPR requires that all personal data processing activities are recorded. Please consult your host institution for the procedure to follow as soon as the project is granted.

- Yes
- No

Does it involve the collection and/or processing of special categories of personal data (e.g.: information on sexual orientation, ethnicity, genetic information, biometric and health data, political opinion, religion or philosophy of life)?

- Yes
- No

Does it involve profiling, systematic monitoring of individuals, or large-scale processing of special categories of data, or intrusive methods of data processing (such as, surveillance, geolocation tracking etc.)?

- Yes
- No

Does your research involve further processing of previously collected personal data (including use of pre-existing data sets or sources or merging existing data sets)?

- Yes
- No

Does it involves the processing of personal data related to criminal convictions or offences?

- Yes
- No

Does your research involve international import or export of personal data?

- Yes
- No

Do you plan to export personal data from the EU to non-EU countries?

Upload

Please upload your file(s)
Does your research involve genetic resources or traditional knowledge associated with genetic resources, that are captured by the EU Regulation related to the Nagoya Protocol?

In Access and Benefit Sharing legislation, more specifically according to the EU-legislation related to the Nagoya Protocol, ‘genetic resources’ are defined as ‘any material of plant, animal, microbial or other origin containing functional units of heredity and that is of actual or potential value’, and ‘traditional knowledge associated with genetic resources’ means ‘knowledge held by an indigenous or local community that is relevant for the utilization of genetic resources’. Please consult http://nagoya.vlir.be for the procedure to follow as soon as the project is granted.

Yes  No

Specify the country(ies).
For all these issues it is necessary to comply with relevant legislation and regulations. Please contact the supporting services at the host institution, as soon as the project is granted.

**Ethical issues**

(Inter)national collaboration: exploitation and ethics dumping

**Will some of the research activities be conducted in non-EU countries?**

- Yes
- No

**Do you plan to use local resources (e.g. animal and/or human tissue samples, genetic material, live animals, human remains, materials of historical value, endangered fauna or flora samples, etc.)?**

- Yes
- No
Will some of the research activities be conducted in non-EU countries?

- Yes  
- No

Name of the country(ies).

Do the undertaken activities in these non-EU countries raise potential ethics issues? *

- Yes  
- No

Specify the country(ies).

Could the situation in the country put the researcher and/or the individuals taking part in the research at risk?

- Yes  
- No

Specify the country(ies).
Do you plan to use local resources (e.g. animal and/or human tissue samples, genetic material, live animals, human remains, materials of historical value, endangered fauna or flora samples, etc.)?

Yes  No

Specify material and country/ies involved.

Does your research involve international import or export of materials?

Yes  No

Do you plan to export any material to non-EU countries?

Yes  No

Specify material and country/ies involved.

Do you plan to import any material from non-EU countries or transfer material in-between two non-EU countries?

Yes  No

Specify material and country/ies involved.
Ethical issues

Environment, Health and Safety

Does your research involve the use of (chemical, physical, sound, ...) substances that may cause harm to the environment (water, air, soil, ...), or to animals or plants (now and/or in the future)?

- Yes
- No

Does your research involve the use of (chemical, physical, sound, ...) substances that may cause harm to humans, including research staff and their co-workers? (now and/or in the future)?

- Yes
- No

Does (part of) your research deal with endangered flora or fauna, or is it carried out within protected areas?

- Yes
- No

Do the proposed experiments make use of any parts of animals, GMOs or pathogens?

- Yes
- No

Does the proposed research make use of information, installations, processes or products that need to be covered by permits (ionizing radiation, radioactive substances, pharmaceutical products, drug precursors, explosives and precursors, cyanides, ozone-depleting substances, soils/animals/animal parts and by-products/plants from third countries ...)?

- Yes
- No
Please consult the brochure of the Flemish Interuniversity Council on the topic: [https://vlir.be/publicaties/brochure-dual-use/](https://vlir.be/publicaties/brochure-dual-use/). For these issues your host institution has to be consulted when the project is granted.

<table>
<thead>
<tr>
<th>Ethical Issues</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dual use and military application</td>
</tr>
</tbody>
</table>

Does your research have the potential for military applications?

- Yes
- No

Does your research involve dual-use items in the sense of [Regulation 2021/921](https://eur-lex.europa.eu/resourcepakket/id/5650002), or other items for which an authorisation is required?

- 'Dual-use goods' are 'goods, software and technology that are commonly used for civilian purposes, but that can have military applications, or can contribute to the production or distribution of weapons of mass destruction.'

- Yes
- No
Some research can generate knowledge, materials, methods or technologies that could also be used in unethical ways. Although such research is carried out with benign intentions, people with bad intentions may potentially harm humans, animals or the environment with the acquired research results.

**Ethical issues**

- Misuse, Security & Human Rights

---

**Does your research have the potential for misuse of research results?**
- Yes
- No

**Might the activities lead to or might the chosen partners be involved in Human Rights violations?**
- Yes
- No

**Do you take security measures to prevent misuse?**
- Yes
- No
Ethical issues
Artificial intelligence

Does your research involve the development, deployment and/or use of Artificial Intelligence?

Yes
No

Does your research involve the development, deployment and/or use of Artificial Intelligence?

Yes
No

Could the development, deployment and/or use of Artificial Intelligence that is based on your research raise ethical concerns related to human rights, values, decision making, and/or can it cause negative societal or environmental impact?

Yes
No
Are there any other issues that should be taken into consideration?

Your research may raise new ethical issues and concerns that are currently not (fully) covered by the Ethics Issue Table (e.g. new developments in the fields of neurobiology, man-machine interaction, developments in nanotechnology, genetic enhancement, etc.).

Please specify.
## Work packages (optional)

Give the number and description of the work packages for which you will submit an application to the relevant ethics committee(s).

**Start date**

Please specify which ethics committee(s) deal(s)/will deal with your applications.

**Ethics committee category**

**Ethics committee**
Ethical issues: Yes

I hereby acknowledge that an ethical approval is required for issues marked with an asterisk (*) as far as they apply to my project proposal. I will abide by the applicable regulatory framework, law and institutional policies regarding matters, with or without asterisk (*), that apply to my proposal. If an ethical approval is required, I will ensure to obtain this approval from the competent ethics committee of my host institution, at the latest before starting with the ethically sensitive activities.

Ethical issues: No

☐ I confirm that I have read all questions above and that there are no ethical issues concerning my research proposal.
Data management plan

Data management is an integral part of sound scientific research. It covers the description of data and metadata, their storage and long-term preservation, the designation of responsible persons, the handling of highly sensitive data, and the open access to and sharing of research data.

The FWO has made data management a key element of its policy for all support channels provided by the FWO. The FWO expects researchers to pay due attention to this dimension before, during and for at least five years after their research.

For background information on data management and the procedures regarding the Data Management Plan (DMP), which FWO expects from its applicants when applying for research funding, please see our website.

Please note that the answers to the questions below and the Data Management Plan should cover the full project, including all (inter)national partners involved in cross-institutional projects.

Describe the datatypes (surveys, sequences, manuscripts, objects ...) you will collect and/or generate and/or (re)use during your research project.

Specify in which way the following provisions are in place in order to preserve the data during and at least 5 years after the end of the research.

Motivate your answer.

- Designation of responsible person (if already designated, please fill in their name.)
- Storage capacity/repository
  - during the research
  - after the research

What is the reason why you wish to deviate from the principle of preservation of data and of the minimum preservation term of 5 years?
Are there issues concerning research data indicated in the ethics questionnaire of this application form? Which specific security measures do those data require? (optional)

Which other issues related to the data management are relevant to mention?
Consent

DECLARATION BY THE APPLICANT

General

In completing this application, the applicant confirms that to the best of their knowledge and belief, the information in this application is complete and correct.

The applicant will inform FWO immediately if the intended project cannot be carried out as foreseen or if a major change occurs that may hinder the planned implementation of the project.

The applicant declares that they have read and agree with the FWO regulations that form an integral part of the application documents published on the FWO website and that form the legal basis of the future contract. Furthermore, they take note that the FWO is committed to the principles of the European Charter for Researchers and the Code of Conduct for their Recruitment.

The applicant agrees that the data required for the application and follow-up are electronically stored and used by the FWO. The FWO will use the data provided by the applicant according to the legal requirements of data protection in Belgium, including the use of the anonymized data for statistical purposes and reports. As soon as the FWO has processed your application, you will receive a notification message. The FWO respects the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) in regards to the processing of your personal data. For more information concerning the privacy policy of the FWO, we redirect you to our website: http://www.fwo.be/en/the-fwo/organisation/processing-personal-data-privacy/.

The applicant agrees that the FWO will forward the full application form including their personal data to the members of the FWO expert panels and to experts involved in the evaluation of their proposal in Flanders and abroad (EU and outside EU) and to a partner organization, if there is any. The panel members and experts must declare in advance that they will treat data confidentially and that they will not forward the data or the knowledge gained to anyone nor use it for their own purpose. FWO will take the necessary safety measures to assure this data transfer to the aforementioned organizations or persons will take place in a secure and correct way. More information and details, if available, are published on the FWO website.

Furthermore, the applicant agrees that the following information may be included in lists published by the FWO: title/abstract; full name of the beneficiaries/supervisors; host institution(s); scientific domains/disciplines/key words; start date and end date, allocated funding of the project.

The applicant declares that all information provided in the personal data section of the FWO E-portal is accurate and up-to-date.

Research Integrity

The FWO watches over the scientific integrity from the moment research funding is applied for until the execution of the research and the publication of the research results. Therefore, researchers benefiting from FWO support as well as their host institutions, (co-)supervisors and other collaborators involved in FWO research are required to adhere to the scientific integrity at all times.

To this end, elementary rules of behaviour have been laid down in the Ethical Code for scientific research in Belgium and the European Code of Conduct for Research Integrity. Both documents are included in the call for research proposals. The FWO assumes that each researcher has acknowledged these codes from the moment the application is submitted and undertakes to comply with their provisions in all stages of the proposed research. This also applies to their host institutions, (co-)supervisors and collaborators involved in FWO research, for whom the applicant bears partial responsibility.

If there is any doubt about the applicability or implementation of a provision, the host institution and/or the researcher responsible for the project at hand will contact the FWO administration in order to clarify or make concrete arrangements about the relevant provision.
